

How do we want to combine parse actions

1 parseDigit :

$$\text{"123"} \rightarrow [(1, \text{"23"})]$$

How do we want to combine parse actions

Monads

1 parseDigit :

$$\text{"123"} \rightarrow [(1, \text{"23"})]$$

2 f:

$$1 \rightarrow \left\langle \text{"23"} \rightarrow [(12, \text{"3"})] \right\rangle$$

$$1 \rightarrow \left\langle \text{"123"} \rightarrow [(11, \text{"23"})] \right\rangle$$

How do we want to combine parse actions

1 parseDigit :

$$\text{"123"} \rightarrow [(1, \text{"23"})]$$

2 f:

$$1 \rightarrow \left\langle \text{"23"} \rightarrow [(12, \text{"3"})] \right\rangle$$

$$1 \rightarrow \left\langle \text{"123"} \rightarrow [(11, \text{"23"})] \right\rangle$$

3 parseDigit >>= f :

$$\text{"123"} \rightarrow [(12, \text{"3"})]$$
